Total healthcare spending rose to one-sixth of the economy in 2020.

3X the average of other developed countries.

Yet, America’s health outcomes are generally no better than those of our peers, and in some cases are worse.

Healthcare experts have estimated that 25% of total healthcare spending.

THAT’S $1 TRILLION,
83M americans covered
64M americans not covered
More than half
Key programs affect 83 million Americans

Healthcare costs are the major driver of increased government spending.

Rising healthcare costs contribute to our national debt, which is expected to grow by 1946

Many of the health outcomes that we struggle to improve in the U.S. are avoidable or preventable, but at a lower cost.
