Selected Charts on the Long-Term Fiscal Challenges of the United States

April 2021
Federal debt is on an unsustainable path

Debt Held by the Public (% of GDP)

© 2021 Peter G. Peterson Foundation
The growing debt is caused by a structural mismatch between spending and revenues.

**FEDERAL SPENDING AND REVENUES (% OF GDP)**

- **Average Spending (1986–2020)**
- **Average Revenues (1986–2020)**
- **Spending**
- **Revenues**

© 2021 Peter G. Peterson Foundation
Net interest costs are projected to rise sharply

**Net Interest (Billions of Dollars)**

Various years are plotted on the x-axis, starting from 2011 to 2031. The y-axis represents billions of dollars, ranging from $0 to $900 billion. The graph shows a sharp increase in projected net interest costs starting in 2021.

**10-Year Interest Costs:** $4.6 trillion

By 2050, interest costs are projected to be more than three times what the federal government has historically spent on R&D, infrastructure, and education combined.

**Federal Spending (% of GDP)**

<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>R&amp;D 2.5%</td>
<td>2020 1.6%</td>
</tr>
<tr>
<td>Infrastructure</td>
<td>2030 2.2%</td>
</tr>
<tr>
<td>Education</td>
<td>2040 4.9%</td>
</tr>
<tr>
<td></td>
<td>2050 8.1%</td>
</tr>
</tbody>
</table>

**Note:** Infrastructure excludes defense.
Over the past decade, the U.S. spent more on interest on the national debt than it did on other national priorities.

**FEDERAL SPENDING FROM FY2010 TO FY2019 (BILLIONS OF DOLLARS)**

- **Net Interest Costs**: $2.5 Trillion
- **Veterans Benefits and Services**: $1.5 Trillion
- **Education**: $1.1 Trillion
- **Transportation**: $0.9 Trillion
- **Administration of Justice**: $0.6 Trillion
- **Natural Resources & Environment**: $0.4 Trillion

**NOTE:** Education includes education, training, employment, and social services.

© 2021 Peter G. Peterson Foundation
Spending for mandatory programs and interest is projected to outpace all other non-interest spending.

**Federal Spending (% of GDP)**

- **Social Security and Major Healthcare Programs**
- **All Other Non-interest Spending**
- **Net Interest**

**SOURCE:** Congressional Budget Office, *The 2021 Long-Term Budget Outlook*, March 2021.

**NOTE:** The major healthcare programs include Medicare (net), Medicaid, the Children’s Health Insurance Program, and spending to subsidize health insurance purchased through the marketplaces established under the Affordable Care Act and related spending.

The elderly population is growing rapidly and living longer

U.S. POPULATION AGE 65+ (MILLIONS)

© 2021 Peter G. Peterson Foundation
Medical spending increases rapidly with age

**Healthcare Spending per Capita by Age Group (Dollars)**

- **0–18**: $3,749
- **19–44**: $4,856
- **45–64**: $10,212
- **65–84**: $16,977
- **85+**: $32,903

Source: Centers for Medicare and Medicaid Services, National Health Expenditures by Age and Gender, April 2019.

Note: Data are for 2014.

© 2021 Peter G. Peterson Foundation
Total U.S. health spending (public and private) is projected to rise to nearly one-fifth of the economy by 2025.

**National Health Expenditures (% of GDP)**

- **1980**: 9%
- **1990**: 12%
- **2000**: 13%
- **2010**: 17%
- **2020**: 18%
- **2025**: 19%

© 2021 Peter G. Peterson Foundation
United States per capita healthcare spending is nearly three times the average of other developed countries.

**Healthcare Costs per Capita (Dollars)**

- Spain: $3,616
- United Kingdom: $4,653
- Japan: $4,823
- Australia: $5,187
- France: $5,376
- Canada: $5,418
- Germany: $6,646
- Switzerland: $11,072
- United States: $4,034

**Notes:** Data are for 2019. Chart uses purchasing power parities to convert data into U.S. dollars. OECD average excludes the United States.

© 2021 Peter G. Peterson Foundation
Although the United States spends more on healthcare than other developed countries, its health outcomes are generally not any better.

**Health Status**
- **Life Expectancy at Birth**
  - WORST: Latvia, U.S., Japan
  - BEST: Estonia
- **Infant Mortality**
  - WORST: Colombia, U.S.
  - BEST: Estonia

**Quality of Primary Care**
- **Unmanaged Asthma**
  - WORST: Latvia, U.S.
  - BEST: Mexico
- **Unmanaged Diabetes**
  - WORST: Mexico, U.S.
  - BEST: Iceland

**Quality of Acute Care**
- **Safety During Childbirth**
  - WORST: Canada, Poland, U.S.
  - BEST: Poland
- **Heart Attack Mortality**
  - WORST: Mexico, U.S.
  - BEST: Iceland

*Notes: Data are not available for all countries for all metrics. Data are for 2019 or latest available.*

Social Security will run a cumulative cash deficit of $2.9 trillion between now and 2035.

**Social Security Surpluses/Deficits (% of GDP)**

- **Actual**
- **Projected**

- **2020–2035 Deficit:** $2.9 Trillion

**Trust Fund Depleted in 2035**

**Notes:** Surplus/deficit numbers exclude interest income. The total deficit of $2.9 trillion is the present value of the cash deficits between 2020 and 2034. The Old-Age & Survivors Insurance trust fund is projected to be depleted in 2034 and lead to a 24 percent cut in benefits that year; the Disability Insurance trust fund is projected to be depleted in 2065 at which time benefits would be reduced by 8 percent.
Low-income seniors rely on Social Security benefits for a major share of their retirement income

**Social Security Benefits (% of Total Income)**

- **Lowest Quintile** (Under $13,499): 81%
- **Second Quintile** ($13,499–$23,592): 81%
- **Middle Quintile** ($23,592–$39,298): 61%
- **Fourth Quintile** ($39,298–$72,129): 39%
- **Highest Quintile** (Over $72,129): 15%

**NOTE:** A quintile is one-fifth of the population. Data are for 2014.

© 2021 Peter G. Peterson Foundation
Discretionary spending is projected to remain below its historical average

% OF FEDERAL SPENDING

Mandatory Spending and Net Interest Costs

% OF GDP

Defense spending accounts for about half of total discretionary spending

2019 Discretionary Outlays: $1,338 Billion

- Defense
- Transportation
- Veterans' Benefits and Services
- Education
- Health
- Administration of Justice
- International Affairs
- General Government
- Housing Assistance
- Natural Resources and Environment
- General Science, Space and Technology
- Community and Regional Development
- Training, Employment, and Social Services

NOTES: Health includes funding for agencies that provide healthcare services or engage in health research, such as the National Institutes of Health, Centers for Disease Control and Prevention, and Indian Health Service. General government includes central executive and legislative functions as well as the administrative costs of Social Security, Medicare, and income security programs. Energy ($5 billion) is included in Transportation. Agriculture ($6 billion) is included in Natural Resources and Environment. Veterans’ benefits primarily consists of medical and hospital care.

© 2021 Peter G. Peterson Foundation
The United States spends more on defense than the next 10 countries combined.

**Defense Spending (Billions of Dollars)**

- **China**: $726 Billion
- **United States**: $732 Billion
- **India**: $400 Billion
- **Russia**: $300 Billion
- **Saudi Arabia**: $200 Billion
- **France**: $100 Billion
- **Germany**: $500 Million
- **United Kingdom**: $500 Million
- **Japan**: $500 Million
- **South Korea**: $500 Million
- **Brazil**: $500 Million

**NOTES**: Figures are in U.S. dollars converted from local currencies using market exchange rates. Data for the United States are for fiscal year 2019, which ran from October 1, 2018 through September 30, 2019. Data for the other countries are for calendar year 2019. The source for this chart uses a definition of defense spending that is more broad than budget function 050 and defense discretionary spending.
## Non-defense discretionary spending funds a wide range of programs

**Non-defense Discretionary Outlays in 2019 (Billions of Dollars): $661 Billion**

<table>

PGPF.ORG
The federal government collects revenues from a variety of sources

2019 Total Revenues
$3,464 Billion

- Individual Income Taxes 50%
- Payroll Taxes 36%
- Corporate Income Taxes 7%
- Excise Taxes 3%
- Other 3%
- Customs Duties 2%

NOTE: Other includes estate and gift taxes, income from the Federal Reserve, and miscellaneous fees and fines.
© 2021 Peter G. Peterson Foundation
The U.S. tax system is progressive, with higher-income taxpayers facing higher tax rates.

Effective Federal Tax Rates by Type (% of Expanded Cash Income in 2019)

- **Excise Tax**: 3%
- **Estate Tax**: 8%
- **Corporate Income Tax**: 13%
- **Payroll Tax**: 17%
- **Individual Income Tax**: 20%
- **80–90th Percentile**: 22%
- **90–95th Percentile**: 23%
- **95–99th Percentile**: 29%
- **Top 1 Percent**: 30%
- **Top 0.1 Percent**: 30%

**NOTES**: Individual income tax rates for the lowest and second quintiles are negative and are netted against the payroll tax rate. A quintile is one-fifth of the population. In 2019 dollars, the income breaks are: 20% $25,300; 40% $50,700; 60% $91,200; 80% $163,600; 90% $239,600; 95% $339,200; 99% $818,700; 99.9% $3,803,800.

© 2021 Peter G. Peterson Foundation
The top 1 percent of taxpayers generate 26 percent of total federal tax revenues

Share of Federal Tax Revenues

Top 1 Percent 26%
All Other Taxpayers 74%

NOTES: Federal tax revenues include revenues from the excise tax, estate tax, corporate income tax, payroll tax, and individual income tax. Data are for 2019. In 2019, a tax unit was in the top 1 percent if its income was $818,700 or higher, as measured by expanded cash income.
Income growth since 1979 is larger for high-income earners, even when including transfers and taxes.

**Average Annual Income After Transfers and Taxes (2016 Dollars)**

- **Top 1 Percent** (incomes up 226%)
- **Top Quintile** (incomes up 100%)
- **Middle Quintile** (incomes up 42%)
- **Lowest Quintile** (incomes up 84%)

**Source:** Congressional Budget Office, *The Distribution of Household Income*, 2016, July 2019.

**Notes:** Increases calculated for 1979–2016. Income after transfers and taxes is comprised of market income plus income from social insurance programs (i.e. Social Security), plus means-tested transfers received (i.e. Medicaid), minus federal taxes. The top quintile includes households that are also in the top 1 percent.

© 2021 Peter G. Peterson Foundation
Total tax expenditures are large in comparison to annual income taxes collected and to the government's major programs.
