Healthcare is the major driver of the projected growth in spending over the long term

**Federal Spending (% of GDP)**

Note: Major health programs include Medicare (net), Medicaid, the Children’s Health Insurance Program, and spending to subsidize health insurance purchased through the marketplaces established under the Affordable Care Act and related spending.

Social Security will run a cumulative cash deficit of $2.9 trillion between now and 2035.

**Social Security Surpluses/Deficits (% of GDP)**

- **Actual**
- **Projected**

**2019–2035 Deficit:** $2.9 Trillion

Trust Fund Depleted in 2035

**Source:** Social Security Administration, The 2019 Annual Report of the Board of Trustees of the Federal Old-Age and Survivors Insurance and Federal Disability Insurance Trust Funds, April 2019.

**Note:** Surplus/deficit numbers exclude interest income. The total deficit of $2.9 trillion is the present value of the cash deficits between 2019 and 2035. The Old-Age & Survivors Insurance trust fund is projected to be depleted in 2034 and lead to a 23 percent cut in benefits that year; the Disability Insurance trust fund is projected to be depleted in 2052 at which time benefits would be reduced by nine percent.

© 2020 Peter G. Peterson Foundation
Low-income seniors rely on Social Security benefits for a major share of their retirement income

<table>
<thead>
<tr>
<th>Quintile</th>
<th>Social Security Benefits (% of Total Income)</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

NOTE: A quintile is one-fifth of the population. Data are for 2014.
Discretionary spending funds a wide range of programs

2018 Discretionary Outlays: $1,262 Billion

- Defense
- Education
- Transportation
- Veterans' Benefits and Services
- Income Security
- Health (Discretionary Only)
- Administration of Justice
- International Affairs
- Natural Resources and Environment
- Community and Regional Development
- General Science, Space and Technology
- General Government
- Other

NOTE: Health (discretionary only) includes National Institutes of Health, the Centers for Disease Control and Prevention, veterans’ healthcare, administrative costs for Medicaid, and Indian Health Service.

© 2020 Peter G. Peterson Foundation
The United States spends more on defense than the next seven countries combined.

DEFENSE SPENDING (BILLIONS OF DOLLARS)

- $609 Billion
  - China
- $649 Billion
  - United States
- $0

NOTES: Figures are in U.S. dollars, converted from local currencies using market exchange rates. Data for the United States are for fiscal year 2018, which ran from October 1, 2017 through September 30, 2018. Data for the other countries are for calendar year 2018.
Discretionary spending is projected to remain below its historical average

The federal government collects revenues from a variety of sources

2018 Total Revenues: $3,330 Billion

- Individual Income Taxes: 51%
- Payroll Taxes: 35%
- Corporate Income Taxes: 6%
- Excise Taxes: 3%
- Estate and Gift Taxes: 1%
- Other: 5%

NOTE: Other includes customs duties and miscellaneous sources. Numbers may not sum to 100% due to rounding.
The U.S. tax system is progressive, with higher-income taxpayers facing higher tax rates.

**Effective Federal Tax Rate By Type (% of Cash Income In 2018)**

<table>
<thead>
<tr>
<th>Type</th>

<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**NOTE:** Individual income tax rates for the lowest and second lowest quintiles are negative and are netted against the payroll tax rate. A quintile is one-fifth of the population. In 2018 dollars, the income breaks are: 20% $25,100; 40% $49,300; 60% $85,900; 80% $153,300; 90% $222,900; 95% $319,100; 99% $754,800; 99.9% $3,318,600. Includes both filing and non-filing units but excludes those that are dependents of other tax units.
The top 1 percent of taxpayers generate 26 percent of total federal tax revenues

Share of Federal Tax Revenues

- Top 1 Percent 26%
- All Other Taxpayers 74%

SOURCE: Tax Policy Center, *Baseline Distribution of Income and Federal Taxes, All Tax Units, by Expanded Cash Income Percentile*, August 2018. NOTES: Data are for 2018. In 2018, a tax unit was in the top 1 percent if its income was $754,800 or higher.
Income growth since 1979 is larger for high-income earners, even when including transfers and taxes.

**Average Annual Income After Transfers and Taxes (2016 Dollars)**

- **Top 1 Percent** (incomes up 226%)
- **Top Quintile** (incomes up 100%)
- **Middle Quintile** (incomes up 42%)
- **Lowest Quintile** (incomes up 84%)

**Source:** Congressional Budget Office, *The Distribution of Household Income*, 2016, July 2019.

**Notes:** Increases calculated for 1979–2016. Income after transfers and taxes is comprised of market income plus income from social insurance programs (i.e. Social Security), plus means-tested transfers received (i.e. Medicaid), minus federal taxes. The top quintile includes households that are also in the top 1 percent.
Total tax expenditures are large in comparison to annual income taxes collected and to the government’s major programs.

**Budgetary Cost in 2018 (Dollars)**

- $1.5 Trillion: All Tax Expenditures
- $1.9 Trillion: Individual & Corporate Income Tax Revenues
- $982 Billion: Social Security
- $623 Billion: Defense
- $582 Billion: Medicare

**Note:** Tax expenditures are deductions, credits, exclusions, and preferential rates. The estimates for tax expenditures do not account for any interactive effects of combining various provisions. Medicare spending is net of premiums and payments from the states. Defense represents discretionary defense spending.

</tbody>
</table>

**Note:** **Includes defined benefit plans, defined contribution plans, plans covering partners and sole proprietors, and IRAs. *Estimate includes employer-provided health insurance purchased through cafeteria plans and TRICARE medical insurance.**
The top 1 percent of taxpayers receive 24 percent of the benefit from individual income tax expenditures

Distribution of Individual Income Tax Expenditures

- Top 1 Percent: 24%
- All Other Taxpayers: 76%

NOTES: Data are projected for 2019. Data only includes non-business tax expenditures that are claimed on individual tax returns.

© 2020 Peter G. Peterson Foundation
The growing federal debt could reduce family incomes substantially

**Income Loss for a Four-Person Family, on Average (2019 Dollars)**

<table>
<thead>
<tr>
<th>Year</th>
<th>Income Loss</th>
</tr>
</thead>
<tbody>
<tr>
<td>2028</td>
<td>-$4,000</td>
</tr>
<tr>
<td>2038</td>
<td>-$8,000</td>
</tr>
<tr>
<td>2048</td>
<td>-$16,000</td>
</tr>
</tbody>
</table>

NOTE: The income measures are based on CBO’s projections of real gross national product per person. The income loss is the difference between the income level if debt rises as it does under current law and the income level if debt remains near its current share of gross domestic product.
Waiting to act raises the cost of stabilizing the debt

Size of Annual Budget Changes Needed to Stabilize the Debt (% of GDP)

If Fiscal Reforms Begin in...

- **2020**: 1.8%
- **2025**: 2.2% (22% larger)
- **2030**: 2.7% (50% larger)
