Selected Charts on the Long-Term Fiscal Challenges of the United States

April 2020
Federal debt is on an unsustainable path

DEBT HELD BY THE PUBLIC (% OF GDP)

Actual       Projected

180% in 2050

© 2020 Peter G. Peterson Foundation
The growing debt is caused by a structural mismatch between spending and revenues.

**FEDERAL SPENDING AND REVENUES (% OF GDP)**

- **Average Spending (1985–2019)**
- **Average Revenues (1985–2019)**

**Spending**

**Revenues**

2019        2039        2049

**NOTE:** Infrastructure excludes defense.
Over the past decade, the U.S. spent more on interest on the national debt than it did on other national priorities.

**FEDERAL SPENDING FROM FY2010 TO FY2019 (BILLIONS OF DOLLARS)**

- **Net Interest Costs**: $2.5 Trillion
- **Veterans Benefits and Services**: $1.5 Trillion
- **Education**: $1.1 Trillion
- **Transportation**: $0.9 Trillion
- **Administration of Justice**: $0.6 Trillion
- **Natural Resources & Environment**: $0.4 Trillion

**NOTE**: Education includes education, training, employment, and social services.
Spending for the major healthcare programs will continue to climb rapidly over the long term.

**Federal Spending (% of GDP)**

**Major Healthcare Programs**

**Social Security**

**Net Interest**

**Discretionary Spending**

**Other Mandatory Spending**

NOTE: The major healthcare programs include Medicare (net), Medicaid, the Children’s Health Insurance Program, and spending to subsidize health insurance purchased through the marketplaces established under the Affordable Care Act and related spending.
The elderly population is growing rapidly and living longer

U.S. POPULATION AGE 65+ (MILLIONS)

<td>2.4</td>
</tr>
</tbody>
</table>

Social Security will run a cumulative cash deficit of $2.9 trillion between now and 2035.

**Social Security Surpluses/Deficits (% of GDP)**

- **Actual**
- **Projected**
  - **2019–2035**
    - **Deficit:** $2.9 Trillion
  - **Trust Fund Depleted in 2035**

**Note:** Surplus/deficit numbers exclude interest income. The total deficit of $2.9 trillion is the present value of the cash deficits between 2019 and 2035. The Old-Age & Survivors Insurance trust fund is projected to be depleted in 2034 and lead to a 23 percent cut in benefits that year; the Disability Insurance trust fund is projected to be depleted in 2052 at which time benefits would be reduced by nine percent.
Low-income seniors rely on Social Security benefits for a major share of their retirement income

**Social Security Benefits (% of Total Income)**

- **Lowest Quintile** (Under $13,499): 81%
- **Second Quintile** ($13,499–$23,592): 81%
- **Middle Quintile** ($23,592–$39,298): 61%
- **Fourth Quintile** ($39,298–$72,129): 39%
- **Highest Quintile** (Over $72,129): 15%

NOTE: A quintile is one-fifth of the population. Data are for 2014.
Defense spending accounts for about half of total discretionary spending

2019 Discretionary Outlays: $1,338 Billion

- Defense
- Transportation
- Veterans' Benefits and Services
- Education
- Health
- Administration of Justice
- International Affairs
- General Government
- Housing Assistance
- Natural Resources and Environment
- General Science, Space and Technology
- Community and Regional Development
- Training, Employment, and Social Services

NOTES: Health includes funding for agencies that provide healthcare services or engage in health research, such as the National Institutes of Health, Centers for Disease Control and Prevention, and Indian Health Service. General government includes central executive and legislative functions as well as the administrative costs of Social Security, Medicare, and income security programs. Energy ($5 billion) is included in Transportation. Agriculture ($6 billion) is included in Natural Resources and Environment. Veterans’ benefits primarily consists of medical and hospital care.

© 2020 Peter G. Peterson Foundation
The United States spends more on defense than the next seven countries combined.

**DEFENSE SPENDING (BILLIONS OF DOLLARS)**

- **$609 Billion**
  - China
- **$649 Billion**
  - United States

- **Saudi Arabia**
- **India**
- **France**
- **Russia**
- **United Kingdom**
- **Germany**

**NOTES:** Figures are in U.S. dollars, converted from local currencies using market exchange rates. Data for the United States are for fiscal year 2018, which ran from October 1, 2017 through September 30, 2018. Data for the other countries are for calendar year 2018.
Non-defense discretionary spending funds a wide range of programs

Non-defense Discretionary Outlays in 2019 (Billions of Dollars): $661 Billion

<table>
<thead>
<tr>

% of GDP

The federal government collects revenues from a variety of sources

2019 Total Revenues
$3,464 Billion

- Corporate Income Taxes 7%
- Payroll Taxes 36%
- Individual Income Taxes 50%
- Excise Taxes 3%
- Other 3%
- Customs Duties 2%

NOTE: Other includes estate and gift taxes, income from the Federal Reserve, and miscellaneous fees and fines.
The U.S. tax system is progressive, with higher-income taxpayers facing higher tax rates

<table>
<thead>
<tr>
<th>Effective Federal Tax Rate by Type (% of Cash Income in 2019)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Lowest Quintile</strong></td>
</tr>
<tr>
<td>3%</td>
</tr>
</tbody>
</table>

**Sources:**
- *Note:* Individual income tax rates for the lowest and second lowest quintiles are negative and are netted against the payroll tax rate. A quintile is one-fifth of the population. In 2018 dollars, the income breaks are: 20% $25,500; 40% $50,000; 60% $87,300; 80% $157,900; 90% $229,900; 95% $334,900; 99% $783,300; 99.9% $3,452,300. Includes both filing and non-filing units but excludes those that are dependents of other tax units.

© 2020 Peter G. Peterson Foundation
The top 1 percent of taxpayers generate 26 percent of total federal tax revenues

Share of Federal Tax Revenues

- Top 1 Percent 26%
- All Other Taxpayers 74%

NOTES: Data are for 2018. In 2018, a tax unit was in the top 1 percent if its income was $754,800 or higher.
Income growth since 1979 is larger for high-income earners, even when including transfers and taxes.

**Average Annual Income After Transfers and Taxes (2016 Dollars)**

- **Top 1 Percent** (incomes up 226%)
- **Top Quintile** (incomes up 100%)
- **Middle Quintile** (incomes up 42%)
- ** Lowest Quintile** (incomes up 84%)

**NOTES:** Increases calculated for 1979–2016. Income after transfers and taxes is comprised of market income plus income from social insurance programs (i.e. Social Security), plus means-tested transfers received (i.e. Medicaid), minus federal taxes. The top quintile includes households that are also in the top 1 percent.

© 2020 Peter G. Peterson Foundation
Total tax expenditures are large in comparison to annual income taxes collected and to the government's major programs.

**Budgetary Cost in 2019 (Billions of Dollars)**

<table>
<thead>
<tr>
<th>Category</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Tax Expenditures</td>
<td>$1.5 Trillion</td>
</tr>
<tr>
<td>Individual &amp; Corporate Income</td>
<td>$1.9 Trillion</td>
</tr>
<tr>
<td>Social Security</td>
<td>$1.0 Trillion</td>
</tr>
<tr>
<td>Defense</td>
<td>$676 Billion</td>
</tr>
<tr>
<td>Medicare</td>
<td>$644 Billion</td>
</tr>
</tbody>
</table>

**Notes:** Tax expenditures are deductions, credits, exclusions, and preferential rates. The estimates for tax expenditures do not account for any interactive effects of combining various provisions. Medicare spending is net of premiums and payments from the states. Defense represents discretionary defense spending.
