

THE NATIONAL DEBT HAS NOW SURPASSED

\$39,000,000,000,000

\$31 TRILLION

debt held by the public

\$8 TRILLION

intragovernmental debt

\$39 trillion is approximately the value of the economies of

CHINA + GERMANY + JAPAN + INDIA + UNITED KINGDOM

COMBINED

this amounts to

\$289,000

per household

or

\$114,000

per person in America

The national debt is growing by approximately

\$4.8 MILLION

per minute

\$288.0 MILLION

per hour

\$6.9 BILLION

per day

Rising debt

can harm our economy and threaten opportunities for every American.

\$39 trillion is enough to cover a public four-year degree for

EVERY GRADUATING U.S. HIGH SCHOOL STUDENT FOR

116 YEARS

We are spending nearly

\$3,000,000,000

per day on interest payments on the debt.

The good news is that there is still time to adjust course.

The earlier we get started, the easier it will be to fix.
